

Company Overview - Mexico

Maquinaria Magnum Company Overview:

Maquinaria Magnum was established as a subsidiary from its parent company Magnum Machining. Jerry Bowman serves as the Chief Executive Officer (CEO) and Chief Financial Officer (CFO) for both the Deerwood, MN and Torreon, Mexico facilities.

Maquinaria Magnum is a manufacturer of precision-machined parts using the most advanced CNC equipment. This equipment is used throughout entire manufacturing process to provide high quality, cost effective product to our customers.

We are becoming one of the leading suppliers of a variety of machined castings. With the ability to "Dual" source the manufacturing process, we are able to offer the customer cost effective solutions to their world wide product lines.

Maquinaria Magnum's competitive advantage within its market is based on the following strengths:

- Technical and Administrative support from the corporate headquarters located in Deerwood, MN.
- Dual sourcing between the two facilities (USA & MX) to provide cost effective products.
- Flexibility and Capacity to grow based on customers needs and requirements.
- Expertise to manage finished goods and raw material inventory (controlled inventory, Kanban, etc)
- Magnum imports machined components from China to be supplied to customers.
- Expertise to supply product globally

 Torreon - 9.5 million
 Deerwood - 14.2 million

2011 Projected Sales
 Torreon - 12.5 million
 Deerwood - 20 million

Maquinaria Magnum History:

With the objective of gaining a better position within the global market, Magnum initiated research in 2002 to explore the possibility of starting operations in México. Magnum specifically chose the city of Torreon, Coahuila, primarily due to the proximity with its main

customers and the strategic location of the city.

The research concluded that Torreon would be beneficial to both Magnum and our customers., In 2003 Magnum started working with each level of the Mexican government to obtain all necessary permits and regulations and established Maquinaria Magnum S de RL de CV as a Mexican corporation.

During the last quarter of 2003 all equipment and installing activities were completed. In January of 2004, Maquinaria Magnum started operations, beginning the PPAP for parts being transferred from Magnum-Deerwood.
